

# SHORTCUT SHEETS METHODS CLASS - One Day

There are 8 Shortcut Sheet techniques. Each shows you how to use your **regular 24" quilting ruler**, cut and sew strips, then cut rows. Sew these rows back together into a new 'sheet'. Then cut the sheet into final units - pressed, sized and ready to use. Each technique has multiple size calculations.

All methods will be demonstrated. Then students can pick which method they want to learn first. There are 8 Practice Pattern kits to choose from. Each kit makes a wall hanging or table topper approximately 24" square.
