

Presentation and Trunk Show From Quilter to Designer

All participants will receive a \$5 coupon

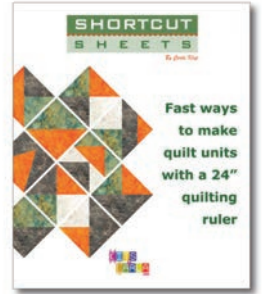

Carla Klop
Designer and Teacher
carla@kitsbycarla.com

Carla first learned to quilt by hand around 1976 and for the next 30 years completed a quilt per year. It was not until discovering the rotary cutter, that her ideas went wild. She developed shortcut methods to speed up her time. These methods are now published in a binder along with patterns and tips.

Carla has created 60+ patterns, many which use her techniques. She has been published 4 times in the American Quilter magazine and has had featured patterns with some of Northcott's fabric collections.

In this hour long presentation, Carla shares the accidental path she took to go from *Quilter to Designer*. She has many quilts to show, all created over the past few years.

Carla and her husband Bill recently moved from Vermont to Labelle Florida. Their new house has a wonderful studio/shop and they run a retreat for max 6 participants.

Shortcut Sheets

There are 8 methods, practice pattern for each and many quilts made using the methods.

Flying Geese

Hourglass

Hunters Star -
2 fabric version

Six Point Star

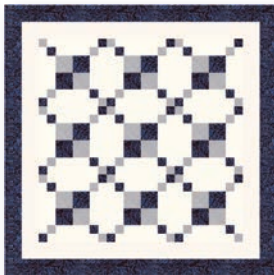

Half Square Triangles

Quarter Square Triangle

Four-Patch

Talking Points - a Paper Pieced Block

Use the uniquely double sided foundation paper to make the blocks and border blocks for a 24" square practice kit. Arrange by rotating or combining regular and mirror blocks for unlimited options.

Triangle in a Square

One Block

Plus Border

Endless Possibilities...
